Plexeon's services provide comprehensive support, monitoring, management, and strategic guidance for your Practice in critical areas including: IT Planning, technology assessments, networks, servers, desktops, wireless devices, tablet computers, security, secure backups, email, Application management, and HIPAA.

You can choose from a standard support plan or have Plexeon design a Practice support plan that will meet your specific needs.

The Value of Plexeon's Managed Healthcare IT Services

Information Technology (IT) has become an undeniably critical component of all healthcare operations. Your Practice depends on your IT infrastructure. Plexeon's Healthcare IT Services provide you with unlimited proactive support that not only keeps your network and Practice IT systems running effectively and efficiently, but it helps you reach your Practice goals. While you focus on Healthcare delivery, Plexeon provides you with an enterprise level IT department. Our "IT Partnership" gives you access to a comprehensive suite of tools and processes that normally have been available only at the largest organizations. Plexeon will design and effectively manage your day-to-day IT needs while we provide strategic guidance to make sure you get the most from your IT investments.

Plexeon's Approach is Simple and Will Immediately Deliver Increased Performance, Security, and Reliability

Technology can be thought of on a continuum beginning with the proper infrastructure and ongoing maintenance. Once the foundation of your technology is in place the focus shifts to increasing efficiency and the quality of healthcare delivery. Plexeon will work with you to develop the proper IT and Project plans, technology assessments and audits, and ensure the right technology is in place to allow your Practice to grow and succeed.
