

PLEXEON

Managed IT Solutions

Hosted Microsoft Exchange

**Realize the enormous economic benefits to be gained from
the very best infrastructure management with Plexeon**

High Availability Infrastructure and Configuration

- Fully redundant High Availability (HA) infrastructure designed and built to minimize the impact of any component failure
- Load balanced and clustered environment
- Delivering 99.99% application uptime—guaranteed

Complete Exchange Email & Collaboration Features

- Offers collaboration for all Exchange users within the same domain
- Schedule meetings and share calendars
- Create contacts in the Global Folder that can be shared and create distributions groups
- Manage and modify Public Folders for organizing content
- Access through (Outlook Web Access) OWA from any internet enabled PC (Internet Explorer is the preferred browser)

Our Backup Strategy

- We take snapshots every 30 minutes to protect you and your users from accidental deletion and failure, and to eliminate single points of failure in the storage system
- Recover any email that has been deleted in the past 14 days immediately

Premium Anti-Virus and Anti-Spam Comes Standard

- Premium spam filtering and anti-virus solution included
- Eliminates 98% of unwanted email before it ever reaches your inbox
- Spam filtering system, powered by Cloudmark®, features Advanced Messaging Fingerprinting™ and real-time threat intelligence to rapidly detect spam

Allocated Storage Space

- Each mailbox is initially provisioned with 2 GB of allocated storage space and 1GB in public folder per domain
- Add storage in 1 GB increments

Anywhere Access

All Hosted Exchange accounts can easily be upgraded to include real-time synchronization of email, calendars, contacts and tasks with the following services:

- BlackBerry from Research in Motion (RIM)
- iPhone from Apple
- ActiveSync for Windows Mobile 5.0 devices (including Direct Push technology)
