Realize the enormous economic benefits to be gained from the very best infrastructure management with Plexeon

Managed IT Services

Plexeon's Managed IT Services Key Benefits

- Proactive 24x7 IT Support
- Strategic Technology Planning and Implementation
- Maximize Technology Investments to Help Your Company Achieve Your Business Goals Through Increased Productivity and Efficiency
- Detailed Infrastructure Performance Reports, Asset Inventory Reports, and End User Usage Reports
- Cost-Effective and Predictable IT Budgets
- Unlimited Access to Purchasing Support, 3rd Party Vendor Management, Strategic Resources, and Up to Date Information About the Latest Technology Trends

Plexeon, a leader in Managed IT Services and Virtual leadership, knows the importance of providing end-to-end strategic services and solutions. The Plexeon solution provides 24x7 support, management, and strategic guidance in core business-critical areas including: networks, servers, security, secure backups and disaster recovery, desktops, email, and Application hosting.

You can choose from a standard support plan or have Plexeon design a technology support plan that will meet your specific needs.

The Value of Plexeon's Managed Services

Information Technology (IT) has become an undeniably critical component of all business operations. Your business success depends on your IT infrastructure. Managed IT Services provide you the unlimited proactive support that not only keeps your network and business IT systems running effectively and efficiently, but it helps you reach your business goals. While you focus on your core business, Plexeon provides you with an enterprise level IT department for less than it would cost you to manage your IT in house. Our "Virtual IT Partnership" gives you access to a comprehensive suite of tools and processes that normally have been available only at the largest companies. Plexeon will design and effectively manage your day-to-day IT needs while we provide strategic guidance to make sure you get the most from your IT investments.

Plexeon's Approach is Simple and Will Immediately Deliver Increased Performance, Security, and Reliability

Technology can be thought of on a continuum beginning with the proper infrastructure and ongoing maintenance. Once the foundation of your technology is in place the focus shifts to increasing employee productivity and efficiency. Many businesses never reach the top of the pyramid, and never realize the dramatic effects that technology can have on achieving business success. Plexeon will work with you to review your business goals and ensure the right technology is in place to allow your business to succeed.
